PROFILE

Web developer with three years of experience in creating and maintaining digital solutions based on Spring Boot, NodeJs and React. I have worked on various projects for national and foreign clients ranging from corporate websites to highly complex mobile applications.

EMPLOYMENT HISTORY

Aug 2021 — Present

Full-stack developer, Inosoft.

I developed complete systems for various sectors, including environment, finance, commerce and public sector. Proposed and led the implementation of different software technologies, practices and architectures for major client projects, resulting in significant performance and productivity increases compared to previous systems.
