Juan Jesús Segura Barría

Full Stack Developer

jesus.segurab560@gmail.com • 9 7428 1363
linkedin.com/in/jesussb • Osorno, Chile

Web developer with three years of experience in creating and maintaining digital solutions. I have worked on many projects for national and foreign clients ranging from corporate websites to highly complex mobile applications.

With solid knowledge of Java, Spring Boot, React and Docker, as well as many design patterns and software architectures, i have collaborated with multidisciplinary teams to carry out successful projects developed with a focus on performance, good practices and maintainability.

Professional Experience

Inosoft.   August 2021 — Present
Full-stack developer

- I have developed complete systems for different sectors like environment, finance, trade and public sector.
- I proposed and led the implementation of different technologies, best practices and software architectures for many important client projects,
  resulting in significant increases in performance and productivity compared to previous systems.
